Violet M. Kimble, PhD

Neuroscience | Addiction | Neuroendocrinology | Clinical AI
violet.kimble@utah.edu | violetkimble.github.io | ORCID: 0000-0002-5075-9643

EDUCATION

PhD, Interdepartmental Neuroscience, Yale University, New Haven, CT 2026

- Dissertation focus: L-type calcium channels, ovarian hormones, cocaine abstinence, and social behavior.
- Selected honors/funding: Dean's Emerging Scholars Research Award; Wu Tsai Travel Award; NIH Outstanding Scholars in Neuroscience Award Program; NIH/NIDA Diversity Supplement, Award #3R01DA050454-04S1.

BS, Neuroscience; Minor in Statistics, Drew University, Madison, NJ 2021

ACADEMIC APPOINTMENTS AND RESEARCH EXPERIENCE

Postdoctoral Associate - Psychiatry, University of Utah, Huntsman Mental Health Institute June 2026-Present
Supervisor: Dr. Nina de Lacy | Salt Lake City, UT

- Project: Psychometric resilience instrument for adults, clinical research design, validation, and translational AI applications for mental health and recovery.

Doctoral Research Fellow - Psychiatry, Yale University Aug 2021-May 2026
Supervisor: Dr. Nii Addy | Department of Psychiatry and Cellular and Molecular Physiology | New Haven, CT

- Project: The role of L-type calcium channels in social behavior and ovarian hormone modulation during substance use and abstinence.

Research Associate - Neuroscience, Icahn School of Medicine at Mount Sinai Sept 2020-July 2021
Supervisor: Dr. Drew Kiraly | Laboratory of Translational Psychiatry | New York, NY

- Project: Gut microbiome disruptions in a rodent model of opioid use disorder.

Research Technician - Neuroscience, Drew University Jan 2018-May 2021
Supervisor: Dr. Christina McKittrick | Department of Neuroscience | Madison, NJ

- Project: Effects of enriched environment on learning, memory, and anxiety behaviors in rodents.

Biostatistics Research Associate, University of Pennsylvania Sept 2020-Jan 2021
Supervisor: Dr. Mingyao Li | Department of Biostatistics, Epidemiology, and Informatics | Philadelphia, PA

- Project: Single-cell transcriptomic analysis of human retina using the Seurat R package.

Bioinformatics Research Associate - Neurobiology, Broad Institute of MIT and Harvard Sept 2020-Jan 2021
Supervisor: Dr. Beth Stevens | Stanley Center | Boston, MA

- Project: Single-cell analysis using Seurat to understand disease-associated microglia in Alzheimer's disease progression.

Research Assistant - Genetics, Harvard Medical School June-Aug 2020
Supervisor: Dr. Martha Bulyk | Division of Genetics | Boston, MA

- Project: Protein Binding Microarrays to analyze DNA-binding differences among human transcription factor isoforms.

Research Assistant - Physiology, Baylor College of Medicine May-July 2020
Supervisor: Dr. Aladin Boriek | Department of Medicine and Physiology | Houston, TX

- Project: In vivo kinematics of canine diaphragm muscle and lower rib cage.

Research Assistant - Bioinformatics/Genomics, The Jackson Laboratory June-Aug 2019
Supervisor: Dr. Elissa Chesler | Department of Bioinformatics/Genomics | Bar Harbor, ME

- Project: RNA-seq analysis of sex differences in the striatal cocaine response of NOD mice.

INVITED TALKS

- L-type calcium channel blockade selectively attenuates cue-induced cocaine-seeking in female rats. NIH Outstanding Scholars in Neuroscience Award Program (OSNAP). Bethesda, MD. 2024 Nov 8.
- Targeting L-type Calcium Channels: Uncovering Sex-specific Mechanisms in Cocaine Addiction and Social Behavior. University at Buffalo Visiting Future Faculty Program (VITAL). Buffalo, NY. 2024 Oct 16.
- Broadening the Spectrum: Promoting Diversity and Inclusion in Scientific Spaces and Beyond. Yale University Department of Cell Biology Beyond-the-Bench Seminar. New Haven, CT. 2023 Oct 26.
- Bar Harbor JAX Summer Student Program (SSP). Commencement Speaker. Virtual. 2023 Aug 10.
- Farmington JAX Summer Student Program (SSP). Commencement Speaker. Virtual. 2023 Aug 11.
- Neurogenomics: Genetics and Genomics in Neuroscience. BWCB Bioinformatics Bootcamp. Virtual. 2021 Jul 22.
- Pathways of Science from College Students' Perspective. Project Interlink for SENDforC STEM Career Spotlight Series. Virtual. 2021 Apr 2.
- Volunteering and Community Engagement during the Time of Covid-19. Engage NJ Student Conference "Keeping Volunteers Connected: Covid-19 Edition." Virtual. 2021 Feb 27.
- My STEM Journey. Project Interlink for SENDforC STEM Career Spotlight Series. Virtual. 2020 Sept 29.

CONFERENCE PRESENTATIONS

- **Kimble VM**, Lacy ND. Prospective Bidirectional Associations Between Vasomotor Symptoms and Alcohol Use Across the Menopausal Transition in Women (*Homo sapiens*). Poster; 3rd Annual SBN Online Research Symposium, October 22-23, 2026; Online.
- **Kimble VM,** Lacy ND. Predicting At-Risk Drinking in Midlife Women: Evaluating the Incremental Value of Multidomain Data. Poster; The University of Utah's One-U Responsible AI Initiative Annual Symposium, October 6, 2026; Salt Lake City, UT.s
- **Kimble VM**. Metabolic Dysfunction Predicts Poor Clinical Recovery in Patients with Substance Use Disorders. Talk; Bridge2AI 2026 All-Hands Meeting. April 28-29, 2026; Bethesda, MD.
- **Kimble VM**, Rogelio C, Argabright S, Aguilera J, Marotta D, Anderson HE. Predicting Early Coma Recovery Using Clinical and Waveform-Derived Features from Electronic Health Records. Talk; Bridge2AI 2026 All-Hands Meeting. April 28-29, 2026; Bethesda, MD.

- **Kimble VM**, Zanda M, Sanchez H, Taylor JR, Rajadhyaksha A, Addy NA. Estradiol regulates LTCC-dependent social behavior deficits during cocaine abstinence in female rats. Poster; Translational Science, April 20-24, 2026, Milwaukee, WI; Poster; The Endocrine Society ENDO, June 13-17, 2026, Chicago, IL.
- **Kimble VM**, Addy N. Estradiol Depletion Modulates Social Motivation During Cocaine Abstinence in Female Rats. Nanosymposium talk; Society for Neuroscience, November 15-19, 2025; San Diego, CA.
- **Kimble VM**, Addy N. L-type calcium channel blockade attenuates cue-induced cocaine-seeking in female rats. Talk; The 48th Annual Meeting of the Japan Neuroscience Society, July 24-27, 2025.
- **Kimble VM**, Nunes E, Addy N. The L-type calcium channel blocker, isradipine, attenuates cue-induced cocaine-seeking during cocaine abstinence in female rats. Virtual Poster; NIH Diversity Supplement Professional Development and Networking Workshop, Sept 24-25, 2024.
- **Kimble VM**, Nunes E, Addy N. L-type calcium channel mechanisms mediating drug and social behavior during cocaine abstinence in females. Talk; The Neuroscience of Addictive Disorders Advanced Course, May 18-25, 2024; Venice, Italy.
- **Kimble VM**, Nunes E, Addy N. The role of L-type calcium channels (LTCC) in mediating cocaine-taking, cocaine-seeking and social interaction during cocaine abstinence in females. Poster; Society for Neuroscience, Nov 11-15, 2023; Washington, DC.
- **Kimble VM**, Nunes E, Addy N. Cue-induced cocaine-seeking and social interaction behavior during cocaine abstinence in female rats: role of L-type calcium channels and dopamine. Poster; Catecholamines Gordon Research Conference, Aug 12-18, 2023; Castelldefels, Barcelona, Spain.
- **Kimble VM**, Nunes E, Addy N. The role of L-type calcium channels on drug and mood-related behavioral responses in female rats during cocaine abstinence. Virtual Poster; Writing Your Own Blueprint: The NIH Blueprint Diversity Conference, Jul 10-11, 2023.
- **Kimble VM**, Nunes E, Addy N. Sex Differences in L-Type Calcium Channel Mechanisms Mediating Substance Use. Talk; SPINES Student Symposium, Jul 2, 2022; Woods Hole, MA; Poster; Society for Neuroscience, Nov 12-16, 2022; San Diego, CA.
- **Kimble VM**, Dadashkarimi J, Dufford AJ, Scheinost D. Predicting Transdiagnostic Social Impairments in Childhood using Connectome-based Predictive Modeling. Poster; Yale Neuroscience Retreat, May 25-26, 2022; Westbrook, CT; Talk; New England Regional SACNAS Meeting, Jun 17-18, 2022; Providence, RI.
- **Kimble VM**, Hofford RS, Kiraly DD. Microbiome knockdown differentially alters the cortical transcriptomic response to morphine in adolescent and adult mice. Poster; Neurobiology of Drug Addiction Gordon Research Conference, Aug 14-19, 2022; Newry, ME; Virtual Poster; Mind, Mood & Microbes, May 19, 2021; Virtual Poster; Friedman Brain Institute Neuroscience Retreat, Apr 30, 2021.
- Shapiro A, **Kimble VM**, Keren I, Salobo SN, Divekar R, Gironta M, Kim MJ, Wilhelm J, McKittrick CR. Housing environment affects anxiety-like behaviors but not cocaine-induced sensitization in female and male mice. Virtual Poster (co-author); Society for Neuroscience, Nov 8-11, 2021.
- **Kimble VM**, Mattioli K, Phanor SK, Kimes PK, Inukai S, Hao T, Sheynkman GM, Bass JIF, Vidal M, Bulyk ML. Using Protein Binding Microarrays to analyze DNA binding differences of Human Transcription Factor Isoforms. Virtual Poster; ABRCMS, Nov 9-13, 2020; Virtual Poster; SACNAS Virtual Conference, Oct 19-24, 2020; Virtual Talk; SHURP Student Symposium, Aug 5, 2020; Virtual Talk; Leadership Alliance National Symposium, Aug 1, 2020.
- Rodriguez N, **Kimble VM**, Ford A, Boriek A. Pressure Generating Capacity of the Diaphragm Is Compromised during Forceful Efforts at High Lung Volume in Dogs. Virtual Poster (co-author); SACNAS Virtual Conference, Oct 19-24, 2020.
- Ford A, **Kimble VM**, Rodriguez N, Boriek A. Kinematics and Volume Displacement of Lower Rib Cage Is Modulated By Level of Muscle Activation of Diaphragm Muscle in Supine Dogs. Virtual Poster (co-author); SACNAS Virtual Conference, Oct 19-24, 2020.
- Boriek Z, **Kimble VM**, Rodriguez N, Ford A, Lopez M, Wynd S, Boriek A, Liebschner M. In Vitro Mechanics of Skeletal Muscles of Abdominal Wall and Diaphragm, and Effects of Aging in Mouse. Virtual Poster (co-author); SACNAS Virtual Conference, Oct 19-24, 2020.
- **Kimble VM**, Boriek A. In Vivo 3D Analysis of Kinematics of Canine Diaphragm Muscle and Lower Rib Cage. Virtual Talk; Baylor SMART Student Symposium, Jul 31, 2020.

- **Kimble VM**, Saul M, Chesler E. RNA-seq Analysis of Sex Differences in the Striatum Cocaine Response of NOD Mice. Talk; Drew University TriBeta Honor Society Research Symposium, Apr 22, 2019; Poster; ABRCMS, Nov 13-16, 2019; Talk; The Jackson Laboratory Summer Student Symposium, Aug 8, 2019.
- Glass K, **Kimble VM**, Jang S, Meyer C, Santana D, Santa Ana S, Shteyn D, Sirota S, Zhang Z, McKittrick C. Effects of Early Life Stress on Behaviors in Adult Rats. Poster; Drew University Day of Scholars, Apr 5, 2019; Madison, NJ.

FELLOWSHIPS, GRANTS, AND AWARDS

Future Leaders Advancing Research in Endocrinology (FLARE) Program, Endocrine Society	2026
AIM-AHEAD Bridge2AI for Clinical Care Training Program, NIH, $12,000	2025-2026
TL1 Award, Yale Center for Clinical Investigation	2025-2026
Outstanding Scholars in Neuroscience Award Program (OSNAP) Awardee, NIH	2024
Visiting Future Faculty Program (VITAL) Scholar, University at Buffalo, $1,000	2024
Diversity Supplement, National Institutes of Health (NIH)	2024-2025
Wu Tsai Travel Award, Yale University, $250	2023
Dean's Emerging Scholars Research Award, Yale University, $2,000	2022
Travel Award, SACNAS, $1,000	2022
SPINES Fellowship, Marine Biological Laboratory, $1,000	2022
Neuroscience Scholars Program Associate, Society for Neuroscience	2022-2024
Carl Storm Underrepresented Minority Fellowship, Gordon Research Conferences, $600	2022
Hardin Prize, Drew University, $1,500	2021
Tracey J. Shors Neuroscience Prize, Drew University, $1,500	2021
Senior Recognition Award, Drew University	2021
The Gold D, Drew University	2021
Outstanding Presentation Award (Life Sciences, Genetics), SACNAS, $1,000	2020
Undergraduate Registration Award, SACNAS, $205	2020
Undergraduate Travel Award, ABRCMS, $600	2019
Travel Grant, Center for Systems Neurogenetics of Addiction, $1,000	2019
Presidential Scholarship, Drew University, $15,000 annually	2017-2021
Civic Engagement Scholarship, Drew University, $2,500 annually	2017-2021
H.W. William & Kathleen W. Caming Scholarship, Drew University, $5,500 annually	2017-2021

TEACHING EXPERIENCE

Biochemistry and Biophysics Teaching Fellow, Yale University	Spring 2024-2026
Medical Software and Medical AI Teaching Assistant, Yale University	Spring 2024
Human Nervous System Teaching Fellow, Yale University	Fall 2023
Foundations of Systems Neuroscience Teaching Fellow, Yale University	Spring 2023
Instructor, Eduexplora	Summer 2023
Innovations in Science & Technology Instructor, Yale Young Global Scholars	2022-2023
Peer-to-peer Teaching Instructor, Yale University	Nov 2022
Substitute Teacher, Perth Amboy School District	Spring 2021
Neuroscience Research Methods Teaching Assistant, Drew University	Fall 2021
Statistics and Neuroscience Tutor, Drew University	2020-2021

MENTORSHIP

- Academic STEM Mentor, Yale Office of Educational Opportunity, 2023-2026
- Catherine Gohar, Post-baccalaureate, University of Washington, 2022-2023, via YBDIC-NGEI
- Nazeli Moralez, Post-baccalaureate, University of Massachusetts, 2021-2022, via YBDIC-PATHS
- Samantha Jackson, Undergraduate Student, University of Texas at Austin, 2021-2022, via YBDIC-BBS

- Marina Edward, Undergraduate Student, University of California, Irvine, 2021-2022, via YBDIC-BBS

ACADEMIC SERVICE AND LEADERSHIP

Peer Review and Editorial Service

Ad hoc reviewer, Frontiers in Molecular Neuroscience	2026-Present
Ad hoc reviewer, *Neuroscience*	2025-Present
Science Mentor, Frontiers for Young Minds	2024-2026

Professional Society, Institutional, and Outreach Service

Committee Intern (non-voting), Endocrine Society RACC	2026–Present
External Communications Officer, ACTS Scholar Special Interest Group (SIG)	2026–Present
Student Deacon, University Church at Yale	2021–2026
Program Director, Yale BBS Development and Involvement Community (YBDIC)	2023–2024
Program Coordinator, Yale OpenLabs Flipped Science Fair	2023–2024
Outreach Fellow, Yale BBS Development and Involvement Community (YBDIC)	2022–2023
Outreach Chair, Wu Tsai Institute at Yale	2022–2023
Mentor and Outreach Chair, SACNAS Chapter at Yale	2021–2023
Outreach Committee Officer, Yale Interdepartmental Neuroscience Program	2021–2023
Judge, Connecticut Science & Engineering Fair	March 2022
Panel Committee Member, Women's Mental Health Conference at Yale	2021–2022
Outreach Committee Member, STEM Mentors	2021–2022
Membership Chair, Black Women in Computational Biology Network	2021–2022

ADDITIONAL PROFESSIONAL EXPERIENCE

Online Support Assistant, Yale College Summer Session	2022–Present
Technology Marketing Associate, Yale Ventures	2024–2026
Traveling Proctor, Yale Resource Office on Disabilities	2022–2025
Impact Measurement Strategy GPE Fellow, Tsai CITY	2024
Phone Outreach Specialist, Yale University	2023–2024
Student Contact Tracer, Drew University	2021
Technology Specialist, Drew University	2017–2021

PROFESSIONAL MEMBERSHIPS

Association for Clinical and Translational Science (ACTS)	2026-Present
Endocrine Society	2022-Present
Society for Neuroscience	2020-Present
The Leadership Alliance	2020-Present

TRAINING AND SKILLS

Computational: SPSS; R; Python; MATLAB (intermediate proficiency); Rhino (basic proficiency)

Data Science: Clinical data analysis; statistical modeling; machine learning; bioinformatics; data visualization

Clinical and Translational Research: Psychometric instrument development and validation; semi-structured interviewing; participant assessment; study visit coordination; substance use disorder outcomes research; recovery prediction modeling

Preclinical and Laboratory Skills: Rodent behavioral pharmacology; cocaine self-administration; cue-induced drug-seeking behavior; social interaction testing; ovarian hormone manipulation
